## PROFESSIONAL SUMMARY

Versatile front-end developer with 4+ years of professional experience creating eCommerce websites and web application solutions. Experienced in JavaScript, TypeScript, React, and Tailwind. Known for translating designs into responsive, user-friendly web experiences. I bring a customer-focused mindset to solving real-world business problems via front-end development.

## EXPERIENCE

### *Web Developer, Brod Solutions*

*July 2021 - present*

- Migrated legacy storefronts to platforms like BigCommerce, Wordpress, and Shopify, improving site speed and user experience.
- Built scalable tools like bulk order charts that extended beyond the native functionality of the eCommerce platform.
- Designed and maintained a real-time API gateway to handle events, log, monitor, and alert on API event failures.
- Frequently collaborated with our backend developer, marketer, and designer to deliver high quality user experiences and user interfaces.

### *Web Developer, Self Employed*

*May 2020 - present*

- Built and deployed WordPress and React marketing websites for local businesses
- Created and managed a film festival website with entry submission and payment processing
- Built and deployed an EPK/music site for a local band, contributing to their signing with a record label
